TRENDS 2024

In order to keep abreast of what is going on in the world and our industry, we let ourselves be inspired every year by the most important trends for the floriculture sector developed by the Flower Council of Holland. The trends have been developed to serve as the basis for us to create our concepts and products.

Humanity and respect for nature are important pillars within the current time spirit. Man sees himself as the center of attention and needs hyper-personal brands and products with a good story in the field of sustainability. At odds with these individual trends is the will to tackle social and climate problems together. The rapid advancement of technology has created a digital acceleration and a focus on our home and immediate environment.

Based on these trends, our following concepts are:

WILDLIFE BLOOMS

Sustainability is important for both indoor and outdoor space and we all strive for a garden with great biodiversity. The ultimate gardening trend involves turning your green oasis into a mini-biotope where plants and animals can live and grow in harmony. Which plants reinforce each other and how can you create your own biotope? We are happy to help you with this!

> [Wildlife Blooms](#)

STYLIST FAVOURITES

Consumers look for brands and products with a good story and a way to showcase your brand is through Influencer Marketing. Especially appealing to younger target groups, the influencer can influence emotions, opinions and (buying) behaviour.

- > Lovely Combinations
- > Shades of Colour
- > Floral Touch
- > Bulbs With a Story

URBAN GARDENING

Urbanization is increasing due to higher living standards in cities leading to housing shortages, lack of space and less free time. People who live in cities increasingly want to have nature closer to home which has in itself created a new trend; The Urban Garden. A consequence of this is that people want to organize their scarce free time with as higher quality as possible.

- > Patio Collection
- > Dig, Drop, Done
- > Pre-Planted Containers

KAPITEYNS CHOICE

The trend towards specialization continues with products being increasingly tailored to a precisely defined group of customers. A general offer is no longer sufficient; people also need a story and origin behind those products that have a clear focus that will justify an idea. We therefore need hyper-personal brands and products that have a good story.

- > Premium Bulb Collection
- > Variety Selection
- > Direct from the grower
- > Perennials
- > Giant Bulbs & Perennials
- > My First Flower Garden

PROMOTIONS

Despite the popularity of online shopping, consumers still want to buy products in store; they desire interest, expertise, touch, sight and smell. To close a deal they have to be relaxed and feel like they are 'winning'. When something is limited we attach more value to it as the psychological pressure to buy increases because we think it is scarce. This limitation applies both to numbers and time so 'gone = gone' and 'only available this month' is widely used.

> Promotions

100% BIO

Sustainability is providing the necessities of life for the current generation without being at the expense of future generations. Due to climate change and declining biodiversity, sustainability is at the forefront of consumers' minds with attaching more value to sustainable products. We see more and more people around us showing more conscious, sustainable or actually more natural purchasing behaviour.

> 100% BIO

GROW, COOK & EAT

More and more attention is being paid to our health, the environment and climate change with more becoming known about the consequences of our food consumption. Our food now travels all over the world having a too large ecological footprint causing us to deplete our planet. The climate is changing rapidly and this realization demonstrates to us that we can be a producer and consumer of our own food by growing our own herbs and vegetables.

> Grow, Cook & Eat

Shades of Colour

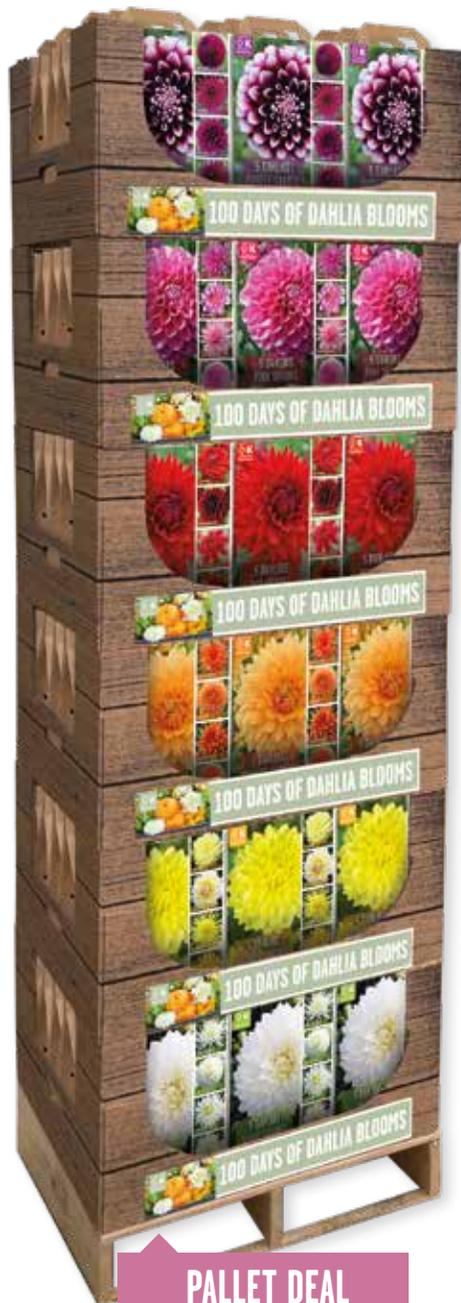

When you get right down to it, gardens are really about colour. Colours can come from flowers, foliage, bark, pottery, furniture, fences and even artwork, but in the end it is all about colour. Our gardens are meant to enhance our lives and to make our homes look better from the Curb. Colour can be soothing or exciting, it can be a riot or a river, it can be front and center or something much more subtle, but whatever our choices, colour is the goal.

100 Days of Dahlia Blooms

These colourful and diverse Dahlia Collections offer the garden more than 100 days of Summer pleasure. Available in six striking colour blends.

BULBS WITH A STORY

Storytelling is trendy. All of the flower bulbs in this range have one thing in common. They all have a story to tell. People need the story and origin behind the product. Ask for a clear focus and green products that justify an ideal; products that contribute to a purpose. We therefore need hyper-personal brands and products with a good story, a story that must be lived up to.

- NL** Storytelling is de trend. Alle bloembollen in dit assortiment hebben één ding gemeen: ze hebben allemaal een verhaal te vertellen.
- DE** Storytelling ist der Trend. Die Blumenzwiebeln in dieser Linie haben eines gemeinsam : Eine Geschichte, die es wert ist erzählt zu werden.
- FR** De jolies d'histoires à succès. Les bulbes à fleurs de cette gamme ont une chose en commun : ils ont une histoire à raconter.
- IT** Raccontare storie è di moda. I bulbi da fiore in questa varietà hanno una cosa in comune: hanno una storia da raccontare.
- ES** Contar historias es tendencia. Los bulbos de flores tienen algo en común con esto, tienen una historia de contar.

The Green Purpose

The target group **Convenience Gardeners** have busy lives. They like gardens that are easy to achieve. Perennials require little maintenance and come back year after year.

TREND

We feel currently increasingly responsible for making room for greenery around us. Perennials contribute to a better climate and more biodiversity; A sustainable choice because they bloom again year after year.

PERENNIALS

Extend your summer flowering garden with perennials. Perennials stimulate the senses with their scent, improve the climate, require little maintenance and attract bees and butterflies. That makes perennials indispensable in the garden, on the balcony or terrace. Perennials return year after year!

-
- NL** Vaste planten prikkelen de zintuigen met hun geur, verbeteren het klimaat, vragen weinig onderhoud en trekken bijen en vlinders aan. Dat maakt vaste planten onmisbaar in de tuin of op het balkon en terras. Vaste planten bloeien lang door de verschillende seizoenen heen. Daardoor kun je het hele jaar van een bloeiende tuin genieten.
- DE** Erweitern Sie den sommerblühenden Garten mit Stauden. Stauden regen mit ihrem Duft unsere Sinne an, verbessern das Klima, sind pflegeleicht und locken Bienen und Schmetterlinge an. Das macht Stauden im Garten oder auf Balkon und Terrasse unverzichtbar. Stauden kommen jedes Jahr wieder!
- FR** Embellissez votre jardin fleuri d'été avec des vivaces. Les vivaces stimulent les sens par leur parfum, subliment le jardin, nécessitent peu d'entretien et attirent les abeilles et les papillons. Cela rend les vivaces indispensables dans votre jardin ou sur vos balcons-terrasses. Un plus : Les vivaces reviennent chaque année !
- IT** Estendi il tuo giardino con piante perenni. Queste piante stimolano i tuoi sensi con il loro profumo, migliorano il clima, richiedono poca manutenzione e attirano api e farfalle. Ciò rende che le piante perenni siano una necessità in giardino o in balcone e terrazza. La pianta perenna torna ogni anno!
- ES** Extiende tu jardín de flores de verano con plantas perennes. Las plantas perennes estimulan los sentidos con su aroma, mejoran el clima, requieren poco mantenimiento y atraen abejas y mariposas. Eso hace que las plantas perennes sean indispensables en el jardín o en el balcón y la terraza. ¡Las plantas perennes vuelven año tras año!

MY FIRST FLOWER GARDEN

Gardening with flower bulbs is lots of fun for children! Playing in and with a natural environment contributes to a balanced and healthy development of children. It makes children more creative, smarter and fitter. Take the kids along in the garden and plant some nice bulbs in all kinds of places - but don't forget the pots and containers.

-

- DE** Gärtnern mit Blumenzwiebeln macht Kindern viel Spaß! Das Spielen in und mit einer natürlichen Umgebung trägt zu einer ausgewogenen und gesunden Entwicklung von Kindern bei. Es macht Kinder kreativer, klüger und fitter. Nehmen Sie die Kinder mit in den Garten und pflanzen Sie an allen möglichen Orten ein paar schöne Blumenzwiebeln – und vergessen Sie die Töpfe und Behälter nicht.
- FR** Jouer dans la terre, se rapprocher de la nature, faire des découvertes : il n'y a rien de plus magique que d'observer une fleur pousser à partir d'un bulbe ! Planter un bulbe à fleur amène l'enfant à observer la nature. C'est une activité ludique et pédagogique, qui permet l'enfant d'être dehors et l'incitera à respecter la nature et à prendre soin de l'environnement. Ce n'est non seulement amusant de jardiner pour un petit, le jardinage stimule aussi tous ses sens ! Il peut toucher la terre, sentir une fleur et observer les insectes pollinisateurs par exemple.
- IT** Il giardinaggio con i bulbi da fiore è molto divertente per i bambini! Giocare in un ambiente naturale contribuisce a uno sviluppo sano ed equilibrato. Rende i bambini più creativi, più intelligenti e più in forma. Vi consigliamo di portare i bambini fuori in giardino e piantate dei bei bulbi in diversi posti - e non dimenticatevi i vasi e i contenitori.
